

Ashok Thakur

FULL STACK DEVELOPER

Dedicated Software Developer with 3+ years of experience developing and deploying high-performance web and mobile applications. Proven ability to lead and collaborate effectively in cross-functional teams, fostering successful project delivery through agile methodologies.

EXPERIENCE

Sankey Solutions, Thane — *Software Developer*

NOV 2020 - PRESENT

- Developed and maintained applications using React, React Native, Angular and Node.js, ensuring high performance and scalability.
- Collaborated with cross functional teams ranging from small teams of 4 to larger teams of 40 for sprint planning, user story grooming and UI/UX design, following agile methodologies.
- Led a team of developers in the design and development of multiple web and mobile applications, resulting in an increase in project efficiency.
- Assisted in designing scalable system architectures and database schemas for enterprise-level applications, focusing on performance and reliability.
- Implemented standard coding practices using TypeScript config, ESLint, and SonarQube.
- Proficient in using GIT for source code management, enabling effective collaboration and version control.
- Utilized UX tools like Figma and Adobe XD to collaborate on user interface design.
- Possess good hands-on experience in back-end technologies like Node.js and Sequelize.
- Extensive experience with AWS (EC2, S3) and familiarity with GCP
- Managed projects from planning to execution, ensuring successful project delivery.
- Experienced in planning sprints and keeping track of project status and issues on JIRA.
